

Step Ten - Bill Approved by Parliament

10 Step Ten Bill Approved by Parliament

PRINCIPLES

- Be responsive, foster feedback loops
Tech policy can be contentious, consensus is not always possible, but demonstrate all voices have been heard and considered.
- Context matters, good tech policy is not designed in isolation
Consider how proposed solutions will impact and interact with adjacent systems and jurisdictions (domestically and internationally).
- Designing tech policy is a journey, not a destination
Just like technology, good tech policy is agile and constantly evolving.
- Good tech policy is responsive and timely, it creates clarity and certainty
Effective communication is critical.
- Consultation is a theme, not a step
When designing tech policy, consult often, transparently, and widely.

LEAD ACTORS

Minister, Cabinet, or Parliament, in consultation with Australian Public Service (APS) lead policy department and Office of Parliamentary Counsel (OPC)
